Productivity & Security Risks

UNSECURED CORPORATE DATA: A single misplaced phone lacking password protection is all it takes for all your corporate data to be accessible to anyone.

DISRUPTED & DISTRACTED EMPLOYEES: Human Resources (HR) stands as the primary cost for any business, and any interference with their productivity will negatively impact your bottom line.

MISSED OPPORTUNITY: Maintaining connectivity is crucial in today's business landscape. Overlooking a solitary email can be the decisive factor between securing a customer and losing a valuable deal!

ARE YOUR EMPLOYEE'S SMARTPHONES AN OPEN DOOR TO YOUR SECURE NETWORK & CRITICAL DATA?

ACCORDING TO IDC REPORTS, ONLY 40% OF IT DECISION-MAKERS ACKNOWLEDGE ALLOWING WORKERS TO ACCESS CORPORATE INFORMATION FROM EMPLOYEE-OWNED DEVICES. HOWEVER, A SIGNIFICANT 70% OF EMPLOYEES ADMIT TO ACCESSING CORPORATE NETWORKS THROUGH THIS MEANS.

Mobile computing is emerging as an increasingly crucial element in every business operation. As end-users access critical business information, communicate with customers, and utilise their mobile devices to facilitate day-to-day activities, it is imperative to ensure that the same management, security, and oversight solutions you depend on for your IT infrastructure are seamlessly extended to cover these mobile aspects.

Our Managed Mobile Solution is crafted to deliver enterprise-class IT management for mobile devices, all at a cost tailored to meet the requirements of small to medium-sized businesses (SMBs).
